

### GENERAL RULES OF ACCESS (AZO)

- 1.) Event Grounds: The restricted areas of the event grounds and spectator area are temporally and geographically defined by an ordinance of the Municipality of Kitzbühel.
- 2.) Caution – Alpine Terrain: The special conditions found in natural, winter terrain are challenging, therefore spectators should adapt their behaviour accordingly and ensure they are properly equipped – an element of sure-footedness is required! The main spectator area is located at the race finish area (ski slope). The racecourse itself is located in wintry mountainous terrain and only partially accessible on foot or with skis (steep terrain). Applicable warning signs and safety barriers must be observed!
- 3.) Restricted Access: Access to the event area on all race days only with valid access authorisation (in the form and restricted times specified by the Organizer). Conditions of the General Terms and Conditions of Ticket Sale (AKB) of the Organizer apply. Additional access restrictions stipulated in the event notice issued by the municipality of Kitzbühel, as well as ordinances from the event and supervisory authorities – also at short notice – are possible and must be observed.
- 4.) Security Checks: Stewards and security staff are authorized to search persons seeking admission to the event grounds for dangerous objects. It is not permitted to bring oversized receptacles in the form of backpacks or bags and the like that exceed personal requirements (except for accredited persons). Security staff are entitled to refuse entry to persons who refuse to be searched or attempt to bring dangerous objects into the event grounds. Those who appear to be under the influence of alcohol will also be refused admission for security reasons.
- 5.) Food and Drinks: Bringing food or drinks of any kind, especially alcoholic beverages, into the event grounds, is prohibited! Stewards and security staff are required to check compliance with this order and deny access in the event of non-compliance!
- 6.) Advertising Ban: Bringing promotional material of any kind into the event grounds (such as banners, brochures, newspapers, magazines, unusual clothing etc.) is strictly forbidden. Non-promotional banners may be brought into the event grounds by fans. These, however, must not hinder visibility or endanger the safety of others in any way.
- 7.) Media Rights: All sound, video and film recordings, regardless of their technical nature (e.g. radio, photo, video/film and TV recordings) may only be made and distributed by authorised media-accredited persons. Photography is permitted for private purposes only. Violation will lead to prosecution. By attending the event, spectators consent to appearing in any sound or video recordings which may produced and published in association with the event. Unmanned aircraft (drones) are prohibited, unless special written permission has been issued by the Organizer.

### GENERAL RULES OF ACCESS (AZO)

- 8.) Environmental Protection: Any damage or contamination of the event area or the facilities must be avoided. The following is specifically prohibited in the event area: pulling or cutting off twigs or branches, damaging, fouling or displacing any objects, intentional spillage of water or any other liquids, igniting fires rockets and fireworks. Paper, food scraps and other waste of all kinds must be deposited in the refuse bins provided. It is forbidden to bring especially environmentally harmful materials, *polystyrene in particular*, etc. into the event grounds, this also includes unusual noise generators.
- 9.) Site Control: Entrances and the grounds are controlled by public and private security bodies (incl. any official video surveillance). Instructions issued by stewards and security staff intended to maintain order and safety must be complied with immediately. In the event of a violation of these admission regulations, the person concerned must identify themselves. Failure to comply with admission regulations or misuse of admission permits will be punished immediately and result in the loss of validity of event access authorization and expulsion from the event grounds.
- 10.) Liability: The event area is entered at one's own risk and by doing so, the general and specific risks involved in attending outdoor events in winter are acknowledged. The Organizer disclaims all liability for any damage suffered by the visitor before, during or after the event in direct or indirect connection with the event, except for such damage for which liability cannot be excluded. Any infringements of these access regulations may lead to prosecution! Place of fulfilment and exclusive court of jurisdiction is Kitzbühel, Austrian law applies.
- 11.) Special Provisions: The admission of animals is not permitted.
